## **Preface**

The purpose of this narrative is to document my Dean ancestry and other family lines sharing the same common ancestor, Solomon Dean, of Little Stanmore, Middlesex, who was born about 1680. In achieving this objective it also illustrates the ancestry of spouses marrying into the Dean line.

This is one of four family narratives, documenting both my paternal ancestry – the Bagwell and Ford families, and those of my maternal ancestry – the Dean and Fletcher families. Where appropriate, this narrative should be read in conjunction with those other published narratives.

There are two main reasons for producing four separate narratives as opposed to one comprehensive publication. Firstly, as I am fortunate to have known most of my great grandparents it feels more appropriate to treat them as separate entities. Secondly, to provide manageable and relevant documents – a full combined narrative runs into approximately 500 pages – without bombarding the reader with potentially hundreds of pages irrelevant to their own interest.

Each narrative is produced in two formats, private and public.

Each Public Edit has been separated into four sections. See “Using the Narratives” below for more information. Only basic information is provided within the public edit in order to identify individuals and key life events, typically: birth, baptism, marriage, death, burial and occasional observations regarding the same. In this way each narrative should provide signposting for fellow researchers, without detracting from the joy of discovering their ancestors for themselves.

Private edits are restricted to close family and selected researchers, and contain substantially more detailed information.

## **Acknowledgements**

Every snippet of information, no matter how seemingly inconsequential is a new piece in a perpetual jigsaw. I am most grateful to everyone who has contributed material for my research project over the past 20 years, some of who have now entered into the long sleep, but whose memories live on in this document. Particular warm thanks are extended to Alice Dean, Miriam Bailey and Sylvia Player.

## Using the Narratives

Each narrative is a live document, with periodic updates being made to individual generations and family groups. As a consequence the reader might find some inconsistencies between linked family trees. You should refer to page 1 of this narrative for the edition date, and individual generation or family groups for revision dates. Please delete or destroy all previous editions of this narrative as they are now outdated and may contain errors and inconsistencies.

Narratives are organised into four parts:

Part 1 illustrates my primary ancestral line;

Part 2 lists other families associated by marriage, from whom I am also descended;

Part 3 details family branches other than my own; and

Part 4 lists other families associated with those branches detailed in Part 3.

Navigation through this document can be achieved through the use of the table of contents and embedded bookmarks for each of the four parts. You can also use the find (Ctrl + F keys) to search for specific information.

Whilst every effort is made to ensure the accuracy of this document, it can not be guaranteed error free. To submit any corrections, or indeed share additional information about a common ancestor, please use the Bagwell Genealogy contact me page.

## Family Identification

Inter-familial relationships are one area of interest to me, as part of my wider research. Each family within my research has been assigned an alpha-numeric number for ease of identification, and searching within the narrative documents.

I have attempted to restrict the mapping of all families to a basic structure.

Each individual has an allocated Unique Reference Number (URN) and, whilst these are not usually referred to within any published documents outside of my database, they do form the basis of further family identification.

Every individual or direct family unit (parents and siblings) where known, are identified by a Family Group (FG) reference. Where two or more family units are known they are collectively given a Family Identifier (FID).

Although the family group may be referred to within the narrative, the absence of any further information indicates that I currently have no information to publish. Spousal surnames in brackets indicate those persons for whom I have not yet identified their pre-marital names. In these instances a family number has not been allocated.

For reasons unknown to myself at this present time, it is inadvisable to attempt a web site search for a family reference alone, as most search engines fail to produce satisfactory search results. The reader will find further information regarding family identification within the Surname Index available on my web site.

## Part 1: Primary Dean Ancestral Line

### 1.1 Solomon Dean (abt 1680-1747) m. Martha or Mary

*I am not satisfied that I have correctly identified the correct early ancestors for the Dean family. The provenance of such is rather flimsy at present, and the only records that I can find for my confirmed ancestor, Solomon (Part 1.3), are baptismal entries for his children. This and the following generation (Parts 1.1 and 1.2) have been included in the family narratives as a subject of discussion.*

### 1.3 Solomon Dean (1750-1817) m. Ann Jones

*Having revisited the source information for my Dean line I am uncertain as to the correct parentage for Solomon. I have originally identified them as Solomon and Elizabeth Ivery, and given this Solomon a birth date of about 1750 at Rickmansworth.
